Product information

Modular sofa system with thousands of possibilities. Starts from a seating section equipped with CSS™, a unique comfort experience and an opportunity to sit from all four sides. It's the beginning in a system with socket or legs, lounge or café seat height, thin or wide backrest, a lot of sizes and shapes of modules, attachable room divider and shelves. Unless it provides enough options, you can match the colors and patterns of the infinite.

Frame in wood.
Pirelli bend braided in the seats frame.
Foam at top together with fiberfill.

Socket in massive wood or legs in black lacquered steel.

Available in a wide range of modules, café backrest, lounge backrest, shelves and wall as room divider. Please see pricelist for more information.

Produced in Sweden.

Test certificate according to EN16139:2013, level 1.
