A series of softly shaped coffee tables with folded edging around in recycled aluminum. Here you can find some different variations. Why not put ice on the table so the drinks keep their cool. Proudly produced in Sweden!

En serie mjukt formade soffbord med uppvikt kant runt om i återvunnen aluminium. Här kan man hitta på lite annorlunda varianter. Varför inte lägga is på bordet så dryckerna håller sin kyla. Stolt producerat i Sverige!
